## BABBINGTON BUSH BASH 6 HR ROGAINE SATURDAY 13th SEPTEMBER 2014 10AM TO 4PM SATURDAY

Don't be put off by the name of this Rogaine, "Babbington Bush Bash", as you will be able to cover a lot of the course with very little 'bush bashing' at all. There is a myriad of tracks throughout the area, most of which are marked on the map, but there are plenty of old logging tracks which are not marked. Babbington Hill sits in the south east section of the course at a height of 822mts. However, as the Hash House is at 720mts, it's actually not too strenuous a climb, and there's a track that takes you all the way to the top.

The Loddon River runs through the centre of the course, cutting its way through some spectacular rock formations and with the Bullarto Reservoir is at the base of Babbington Hill, there's lots of scenery to admire.

At just 7kms east of the township of Daylesford, this area of the Wombat State Forest is encompassed by the small towns of Glenlyon, Lyonville, Bullarto, Spring Hill and Little Hampton, to name but a few. The cleared farm land around is still mainly used for potato growing, so be prepared to stop at a roadside stall on your way to the event to pick up a bag of freshly dug potatoes. The area was also known for its logging and saw mills (now closed down), and numerous mineral springs, some of which you will come across during the event.

The Daylesford to Melbourne (via Woodend) railway line was once a busy route transporting grain and wool. It was opened in 1880, but closed for commercial and passenger transport in 1978, and now offers a Sunday tourist service from Daylesford to Bullarto. Bullarto Railway station sits at 747m above sea level, and purports to be the highest elevated station still operating in Victoria.

Lyonville is known for its popular hotel, 'The Radio Springs', Peros organic wines, and it's town motto "where the lions roam free". I think we can guarantee that you won't see a lion anywhere, but there will be plenty of native wildlife.

If you decide to stay overnight in the area (sorry no camping available at the Hash House), you can visit the Daylesford market on Sunday morning, or relax and rest those weary feet at the spa in Hepburn Springs.

So if you've never been on a Rogaine before, or know someone who would like to come along for their first event, then "The Babbington Bush Bash" is for you. Lots of easy checkpoints to find near the hash house, and plenty of other checkpoints to challenge the more experienced.

**Event results are posted on the VRA web site,**

8 hr	Sat 15th November	Maybe Wangaratta area

### The Australasian Rogaining Championships -

Hosted by Victoria 11th & 12th October 2014

The location has been selected with great Hash House facilities including showers and some accommodation. The exact location will not be announced until much closer to the date. Victoria has set out to plan a course in one of the state's best locations. Not too steep and not too flat.

Very open vegetation and close to Melbourne to enable interstate Rogainers to comfortably be home Sunday night.

For Victorians we will need additional volunteers than a normal 24hr rogaine. We'll have many more entrants.

#### About the event

On 11th October 2014, the VRA will host the Australasian Rogaining Championship 2014 (ARC14) near Castlemaine, Victoria. We expect over 500 Rogainers from Australia and New Zealand will convene to compete in teams of two to five for the title of Australasian Rogaining champions. This event also encompasses the 24hr Intervarsity (University) Championships, and a non-championship 6 hour Rogaine.

#### Location

The ARC14 will be held near Castlemaine, Victoria. Castlemaine is approximately 90 mins north-west from Melbourne by car. The exact location of the Hash House will be announced closer to the event (to protect the integrity of the course). The Hash House location is a permanent camp with some bunk accommodation for international and interstate athletes. There is free camping, hot showers, coffee and food available from Friday afternoon until after the event finish on Sunday afternoon. The VRA will offer a Bus coach service from the Melbourne CBD (Southern Cross Station) and Melbourne Tullamarine International airport on the Friday afternoon before the event, and also after the completion of the event on Sunday afternoon.

#### Course

The course has been set by Andrew Baker, one of Victoria's leading rogainers and course setters. He is assisted by Derek Morris, a past Australasian Rogaining Championship course setter. Both Andrew and Derek have vast experience in setting 24 hour Rogaining

courses that are to International standards. The terrain is a mixture of fast open eucalyptus forest and some farmland, with complex spur gully terrain to test both the endurance and navigation skills of teams during the event.

#### VRA Bus

Bus transport must be booked advance. Departure from Southern Cross Station on Friday evening at 4pm, with an additional pickup at Tullamarine Melbourne Airport at 4.30pm, with an estimated time of arrival at Hash House at 6.00pm. Pasta dinner (Friday) and breakfast (Saturday) package is available, timed for your arrival by VRA bus service. Return bus departure will be at 2.30pm on Sunday 12th October arriving at Melbourne Tullamarine Airport approximately 4.30pm and Melbourne CBD at 5pm. If you intend to take the Bus and are coordinating flights into/from Melbourne Tullamarine Airport, please allow sufficient time for bus and flight delays.

## President's Piece

### Tom Lothian VRA President

Hi everyone and happy September.

Firstly many thanks to Steve and Paula Horton for setting the Metro-Cyclogaine in Phillip Island. It is always a spectacular course and this year was no exception. Special acknowledgement should go to Steve and Paula who also coordinate the schools, scouts and cadets championships. They have put in a big swathe of work for the VRA in the last couple of months and given us some great events as a result. If you get the opportunity give them a quick back massage.

A reminder that the committee are now busting out their stylish orange caps at events to identify them as lovely people who might have answers to your questions but who have very questionable dress sense. Please feel free to have a chat and get to know some of the folks who make this sport tick.

We have started making inroads into the event calendar for 2015 with several setters emerging already. For those who are keen to put on an event please contact Geoff Hudson (our shiny new Volunteer Coordinator who is featured later in this magazine) on [volunteer2@vra.rogaine.asn.au](mailto:volunteer2@vra.rogaine.asn.au). If you have never set an event before we will be able to pair you with a more experienced rogainer to show you the ropes and make sure you have a great and productive time. Event setting is a different challenge and really helps develop navigation and course planning.

As always we have a real need for general helpers for our upcoming events. The Australasian Championships in October will take up the time of many of our more experienced volunteers. If you have been thinking about helping out at an event anywhere between now and November would be very much appreciated. We have great courses coming together for the remainder of the year, it would be excellent if they were well supported by

admin and catering.

Speaking of the Aus Champs, preparations are well underway for a spectacular event. Andrew Baker and Derek Morris have been furiously taping trees and talking to land holders. Ainslie Cummins and Peter Chen are plotting an amazing array of food and I am going quietly mad trying to get navlight to turn tricks it was never intended to. Entries are now open via the event website <http://vra.rogaine.asn.au/arc14/>. Thanks to Greg Robinson for all his coordination thus far and the small legion of folks getting this event to a very high standard.

We have some training days coming up in late August and September. We will be running a classroom based training lead by Heather Leslie and John Gavens on August 30 at the Lions Club Hall in Box Hill South. This training will cover the mechanics of navigation and course planning with practical elements to ensure everyone can reliably walk in the straight line they want to. We will then be running day and night navigation training at Spring Hill for those wanting to build their skills on a mini course in the day and the night. For more information visit the VRA homepage ([vra.rogaine.asn.au](http://vra.rogaine.asn.au)) or contact Andy Elam on [TrainingDay@vra.rogaine.asn.au](mailto:TrainingDay@vra.rogaine.asn.au). A correction to the last newsletter is that there is a small fee for both events. The primary reason for this is to ensure that those who sign themselves up attend. In recent years our training has been oversubscribed and it seems a shame to keep people on the waiting list if folks can't make the day after signing up.

See you on course.

#### Pots trolley to be retired

The old pots trolley is about to have babies. We are expecting triplets and an ugly duckling. These new trolleys will make loading and unloading our equipment much easier. The old pots trolley also wants a new home.

Anybody who wants to give the old pots trolley a new meaning in life please contact HRH Pottiness, care of [President@vra.rogaine.asn.au](mailto:President@vra.rogaine.asn.au)

**60 seconds with..... Geoff Hudson**

Q1: When and where was your first rogaine?

A1:Years ago, when our sons were doing the 2x6 Schools Rogaine; it was at Creswick and started at the agricultural college.

Q2: Why did you start rogaining?

A2:Initially, we came along just to help out - then discovered that this was something we could do. At first, I ran with Bruce Paterson and we did reasonably well, but he's a much stronger runner than me now.

Q3: Who is your usual rogaining partner?

A3: I enjoy rogaining with Louise Hall; she's quite fit enough to run if we need to and since moving to Bendigo she's become a pretty capable navigator.

Q4: How many rogaines have you competed in?

A4:Not as many as I'd like. I cycle in Europe each winter - I take my bike, tent and sleeping bag and avoid the colder weather that we get here in the winter months.

Q5: Tell us about your favourite event?

A5:A novelty event that started at Bruce Paterson's homestead in the Strathbogie's - it was pretty cool - the activities along the way provided entertainment and the weather and company were great.

My least favourite was a gruelling event up Eildon way that was incredibly steep - no matter where you went - and bucketed down with rain about 5 hours in. I felt pretty sorry for the folks that stayed on to do the 12 hour event.

Q6: What is your most memorable moment during a rogaine?

A6:Cramping badly at a 12 hour Brisbane Ranges event - thanks to Phil Giddings for being so patient.

Q7: What is your favourite type of event, and why?

A7:Cyclogaines - I'm a much better rider than runner.

Q8: What is your rogaining strategy (feet, food, planning)?

A8:Avoid climb wherever possible - I'm not good on hills....well, uphill anyway.

Q9: What keeps you coming back to rogaines (or why might you come back)?

A9:I love being part of something that's well organised without too much hassle. Volunteering at rogaines lets me meet some really nice, like-minded people.

Q10: What do you do when you are not rogaining?

A10:I organise navigational training for various youth groups in Melbourne's Eastern suburbs.

Fancy a weekend in Wellington? The Metlink City Safari is New Zealand's largest public rogaine and this year attracted 550 participants. David ran the event previously in 2009, teamed with kiwi Jamie Stewart to win narrowly. This year, family team of David and Stephanie Rowlands took the Air New Zealand red eye to Wellington arriving Friday midnight and were back at work/school on Monday morning.

This is a 3 or 6 hour rogaine with a twist: travel by public transport is allowed and is an essential part of the strategy. The organisers suggested that: "the smartest family team may be able to beat the fastest athletic team".

The start was in the Civic Square in central Wellington. Public transport options included numerous buses, the cable car to Kelburn, the ferry to Seatoun and Petone, or trains to Johnsonville and Lower Hutt. Sadly the trolley buses no longer run on Sunday and may be gone in a few years.

Steph and the "weeping angel".

This was checkpoint 20 in Karori Cemetery: What type of memories did Francelle Underwood leave? a) cheerful, b) loving, c) fun, or d) colourful? Answer: d.

The day prior, we crammed maps and timetables to understand common destinations and most frequent bus services, then explored the magnificent Wellington docklands and the "Beehive" parliament building in the beautiful sunny weather.

The event pack consisted of five maps at scale 1:18,000 and contour interval 10m, plus an overview map. The Sunday public

transport routes were shown in various colours on the map together with every bus stop and a list of key public transport departure times.

Normally a rogaine does not allow you to know progress of other teams, but this event fully embraced modern communications technology. Each checkpoint was a multiple choice question rather than a flag. To prove that a checkpoint had been visited, we used our mobile phone to text in the checkpoint number and its answer code.

Every 30 minutes, the organisers texted back the top three results plus our position. Live results were available on Facebook, and at the finish line a large TV screen displayed progress results and a map showing the checkpoints, visit frequencies and selected routes.

Before the big event was "The Prologue", a 10 minute crazy sprint score orienteering event on a 1:4000 scale map around the Docklands. We were a few seconds late fumbling the finish line text message and copped a 10 point penalty.

Wellington is hilly. One tactic is to take the public transport up the hills and run down. Checkpoint 40 was "How many steps between the two streets?" Answer: 193. Fortunately we were going downhill. Our route took us through the Karori Cemetery, Wellington Botanical Gardens to the top of the cable car, Seatoun ferry, the hills above the airport and Wellington Zoo.

We came 18th in the mixed section with 1070 points. And in case you wondered, they copied the name "Metlink" from Melbourne.

David Rowlands

## Pig wants a new home

The committee has decided to put the old pig out to pasture. After years of service it has been decided to upgrade the pig because of the OH& S issues in feeding her during events. She is too big and heavy to keep moving. Our new, leaner, pig will be kept in a sty attached to our new trailer. We expect the new pig will have fewer, and more environmentally friendly, emissions.

Anybody who wants to save the old pig's bacon and give her a new home please contact the VRA Chief Swineherd, care of [President@vra.rogaine.asn.au](mailto:President@vra.rogaine.asn.au)
